# Jewelry Appraisal

*and Identification*

*Jewelers*

**PROPERTY OF:**

**DATE:** June 5, 2010

☒ THIS DOCUMENT IS FOR INSURANCE PURPOSES

☐ THIS DOCUMENT IS FOR ESTATE PURPOSES

Values for insurance purposes, such as replacement in the event of loss, are offered to give the owner sufficient protection to recover like quality value, similar styling, and do not necessarily reflect the original purchase price since these values are based on estimates of the quality of the stones and jewelry cannot be replaced exactly, because of foreign manufacture or a variety of other reasons, therefore values are determined to permit replacement with a similar item of value at a future date. Therefore the values set forth herein are estimates of the upper current market prices that the appraiser jewelry or gem stones could be purchased in a fine store providing that the item would be sold by such an establishment.

Values for estate or inheritance purposes as indicated herein are estimates of what the present fair market value might be and, therefore, represent an estimation of the value that a willing buyer and a willing seller decide upon. Since this type of value usually involves a non-retail transaction, it does not represent the replacement value of similar merchandise.

### ABBREVIATIONS AND EQUIVALENTS
